

## Creating economic opportunities for women is one of the smartest investments we can make.

Porebada Ahine Limited is an example of a great investment at work.

These women shared a vision of building a viable business to provide linens to the PNG LNG Project. Our investment in the Enterprise Centre helped connect them with the training, skills, and business advisory services to make their vision a reality.

Porebada Ahine Limited has delivered their first order of linens to the PNG LNG Pioneer Camp on budget and ahead of schedule. And their work continues.

Together, we're making change for Papua New Guinea.
